

Hello vajrang.....!

I am excited to share this news to you that I got 2 offer from very good organizations. All are possible because of your 30 days developer training helps me to crack the interviews and also lot of confidence and knowledge I gained from your raining and guidance.

A BIG THANK YOU.....!! 🙏🙏

12:33 AM

Automated the download of 460 photo galleries (1TB), saving hundreds of hours of manual work.

## Challenge

A professional photographer had an extensive portfolio of around 460 galleries on Zenfolio, each containing 50 to 200 photos. Collectively, the galleries amounted to nearly 1TB of data. Downloading them manually was highly impractical, with each gallery taking 15–17 minutes, which would have required more than 120 hours of repetitive effort.

Got offer from TCS CG cts 10:17 am

Awesome buddy 10:21 am ✓✓

Congratulations 10:21 am ✓✓

10:22 am

Got offer from cognizant. Coming 14 joining date .3 offer kidaichachu. Finally selected cognizant. TCS 50% Capgemini 80% CTS 105%. So CTS select panirukan 10:22 am

Thank you for your support avi 10:22 am

You are helped me a lot in my starting career 10:23 am

## Solution

We developed an automated process using UiPath to manage the gallery downloads. The automation was designed to run seamlessly in the background, completing all 460 galleries in just 36 hours. In addition, we built an automated reconciliation step to verify the accuracy and completeness of the downloaded data, followed by generating a detailed report for the client. This ensured accuracy, consistency, and efficiency while preserving the original photo quality.

I was an RPA developer earlier then I was on 2yrs maternity break. After 2yrs of break, When I was looking forward to kick start my career, I came across Vajrang 30 days training - It was very helpful. It helped me brush up with all the latest enanchments. Thank you Vajrang for all the knowledge you shared. I recommend this 30 days training for freshers, experienced and also who are looking to kick start der career after a break. Thanks again Vajrang.

## **Result**

The solution transformed what would have been over 120 hours of manual work into a fully automated 36-hour process. With automated reconciliation and reporting in place, the client had complete confidence in the accuracy of their data. All galleries were downloaded reliably and on time, enabling the photographer to access their complete 1TB collection with ease and prepare it for use on their new website without delays.

I have a good news. I have got two offers from Mynd integrated solutions and HCL. I got 8.5 lacs from HCL.
